Professional Experience

General Assembly — Seattle, WA

July 2016 - October 2016

12 week intensive program for full-stack web development focusing on responsive web applications. Included 50-70 hours of instruction and projects per week.

Starbucks — Kirkland, WA

Barista

November 2015 - Current

I trained new partners on creating quality custom beverages and the core values of Starbucks

Sleep Disorder Center of Central Texas — Austin, TX

Sleep Technician

October 2008 - May 2014

I ran diagnostic sleep studies to AASM standards, as well as maintained and repaired EEG and CPAP equipment.

Projects

Euclid

A front end FM Synthesizer. Allows the user to create generative compositions using just the browser.

Javascript, Canvas, P5.js

Artemis

*1st place in GA 24 Hour MEAN Stack Hackathon

A full stack web application that helps you keep track of all the applications you're sending during a job search.

MongoDB, Express, Angular, Node

Accio Bike

A full stack web application for storing information about your bike and web crawling through Craigslist to help find it if it is stolen.

Ruby on Rails, Javascript, NokoGiri

Profile

I'm a Web Developer who is transitioning his career from building digital synthesizers to building enterprise level web applications. As a musician and digital artist I enjoy the process of taking small motifs and expanding on them to create pieces of music. As a programmer I use those creative skills to write code that forms web applications with aesthetic design and exacting functionality.

Skills

HTML5

CSS3

Javascript

Node.js

Angular.js

Ruby on Rails

SQL/PostgreSQL

MongoDB/Mongoose

RESTful APIs

Git & Github

Education

Web Development Immersive
General Assembly - 2016

BFA., Music Technology
California Institute of the Arts
-2015
